Our company profile

No business is too small

While large companies have huge accounting units with access to established accounting and auditing firms, small and medium enterprises (SMEs) usually make do with the crudest record-keeping by their owners and managers as source of financial information.

Our vision is a more level playing field. No business is too small to benefit from a properly set up and efficiently working accounting system. We consider it our mission to provide SMEs the full range of accounting services that would enable them to compete in this age of technology and globalization. We join them in exploring the potentials of our time.

About Us

With the advent of the information age, we are seeing hundreds of new SMEs each day which have limited access to a Certified Public Accountant (CPA). The GEL Accounting Solutions & Consultancy wants to address this by being a forerunner in servicing their needs and by becoming a part of the fastest growing sector of our economy today.

www.lumantao.com

Despite being relatively new, the company has set up accounting systems, installed accounting software, prepared bank reconciliation and financial statements, handled tax compliance, provided detailed manpower, conducted audit, and provided management advisory services to small and medium-size companies in various industries like merchandising, advertising and graphics, health care, mining, and profession-related businesses.

Services

We provide the following services:

- Set up of accounting systems for upstarts and small businesses,
- Installation of computerized accounting software,
- Outsourced bookkeeping services,
- Preparation of bank reconciliation statements,
- Assistance in inventory taking,
- Outsourced payroll processing,
- Yearend financial statement preparation,
- Tax return preparation,
- Risk analysis, external audit, and fraud investigation,
- Tax compliance and tax audit assistance, and
- Management advisory services.
